

Fellowship prospectus

The Health Education England fellowship programme in the East Midlands is designed to afford doctors in training in the region a range of development opportunities that are fully integrated with their clinical training. HEE fellows can also obtain a postgraduate qualification and additional competencies beyond their specialty curriculum.

[1]

The Shape of Training Review published in 2014 recommends that, during their postgraduate training, doctors should be given opportunities to spend up to a year working in a related specialty or undertaking education or medical leadership and management work.

Fellow in Clinical Leadership and Management in Neonatology/Paediatrics

Applications are invited from candidates who have a strong interest in clinical leadership and management. The Fellowship will be for a period of 6-12 months from February 2017. The trainee will continue to work clinically in a subspecialty area of their choice (up to a maximum of 2 days per week).

This 6-12 month innovative Fellowship has been developed to support future service pathways between Obstetrics, Neonatal, Community Midwifery and Primary Care.

The Fellowship will have a strong Quality Improvement focus. The trainee will undertake two main QI projects.

Please read the full details of the role in the Related Documents section below.
